

GRAPELINER SF200

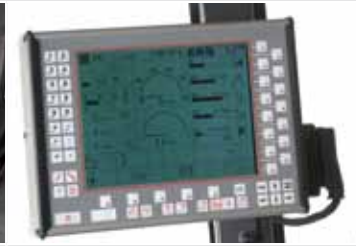

Perfection in the vineyard

ERO GRAPELINER SF200

Basic equipment:

- Comfort Cabin with transparent floor panels for free view of grape zone and front wheels
- Joystick operation

- Flat screen display
- freely adaptable harvesting programs, up to five can be saved
- intended washing program.

- Double shaking system, 14 shaker inserted

- Three independent leaf separation systems

- Twin-Lock Hydrostat system (Poclairn)

- DEUTZ-6-cylinder-motor, type 2012, 116 kw, water-cooled

- Ground sensing
- Conveyor stoppage indicator
- Hydraulic conveyor reverse
- Meter counter, stopwatch and hectar counter

Optional equipment:

- 6 cyl. DEUTZ-engine 2012, 129 kw, water cooled diesel, complies with EURO 2
- 6 cyl. DEUTZ-engine 2012, 147 kw, water cooled diesel, complies with EURO 2
- Air conditioning
- Differential lock
- Steep terrain protection
- Automotive drive and power regulation
- Four wheel foot brake
- Suspended frond axle
- 40 km/h version
- Automatic steering, ultrasonic
- Pole guide
- Automatic disconnection of shaking system on poles
- Ultrasonic height display
- Ultrasonic height display with heightsave
- Camera system
- Tipping edge shortening
- Harvested grape distributor
- central lubrication system
- De-stemmer (several versions)
- Elevator with 1500 l grape bin

Technical data:

Grape bin capacity:	2400 - 2800 l
Grape catchment length:	2.60 m
Emptying height for tipping bin:	2.80 m
Edge length of tipping bin:	1.80 m
Minimum tunnel height:	2.05 m
Maximum tunnel height:	2.80 m
Empty weight with cabin:	7990 kg
Weight distribution:	
Front axle:	3,600 kg (45 %)
Rear axle:	4,390 kg (55 %)
Overall length:	4.50 m
Overall width (dep. on tyres):	2.52 m - 2.85 m
Overall height:	3.75 m
Overall height with de-stemmer:	3.86 m
Wheelbase:	3.23 m
Track (dep. on tyres):	from 2.05
Turning radius (dep. on tyres):	from 4.20 m
